## Product Description

### 56pcs Minnow Hard Bass Bait Floating Carp Lure Kits Peche Leurre Fish Bait Set

**Minnow-Style Crankbaits:** These lures are designed to mimic the appearance and swimming action of a minnow. They often feature a slender body shape with a diving lip that allows them to dive to specific depths. Minnow crankbaits come in various sizes and colors.

**Soft Plastic Swimbaits:** Soft plastic swimbaits are often realistic-looking baitfish lures that come in various sizes. They have a soft, flexible body and are typically rigged on a jighead. They can be retrieved at a steady pace to create a lifelike swimming action.

**Jerkbaits:** Some jerkbaits are designed to imitate minnows and other small fish. They are typically slender, have a suspending or slow-sinking action, and are used to trigger strikes by imparting action through rod jerks or twitches.

**Topwater Minnow Lures:** These lures are designed to float on the water's surface and create surface disturbance or a walk-the-dog action. They can be highly effective for species that strike prey from below.

**Spinnerbaits:** Spinnerbaits can also be part of a minnow lure set. These lures combine a spinner blade, skirt, and a jighead, often resembling small baitfish.

**Variety of Colors:** Minnow lures come in a variety of colors to match the local forage and water conditions. Having different color options in your set allows you to adapt to changing fishing conditions.

**Tackle Box or Storage Container:** Many minnow lure sets include a tackle box or storage container to keep your lures organized and protected.
